ALL SET FOR CHILDREN'S CARNIVAL AT SUNSET, FRIDAY, MARCH 16, AT 2 P. M.

Devoted Exclusively To Carmel and Vicinity

CARMEL SUN

Carmel's Leading Newspaper

VOLUME NO. TWO — CARMEL-BY-THE-SEA, CALIF., THURSDAY, MARCH 8, 1934 — NUMBER 6

COMMITTEE MEETS WITH RAILROAD COMMISSION

Meeting with A. B. Fry, representative of the railroad commission in Monterey Wednesday were John B. Jordan of Carmel, Mayor Teaby of Monterey and Dr. Clay of Pacific Grove. The meeting was held in the office of Atty. Argyll Campbell for the purpose of determining what might be done toward eliminating the toll charge between Carmel, Monterey and Pacific Grove.

No definite action was taken except that the telephone company was asked for figures upon which the commission may base their investigation.

It was determined, however, that the tolls, which amount to $20,000 each year, an amazing total, were paid by about 20 per cent of the subscribers. Should the income of $20,000 be taken from the telephone company by this system, it will have to be added by raising the rates not only of the 20 per cent but of the additional eighty per cent, who apparently have no use for a free toll. The commission will not ask the telephone company to take this loss in addition to the losses they have already taken through the depression when so many have had their phones disconnected.

It has been stated, unofficially, that should the commission decide to discontinue the toll rate and raise the phone rates, the people of the peninsula will be given a chance to decide what they wish to do in the matter.

JASMINE BUSH WILL CLOSE DOORS APRIL 1

Carmel people will greatly regret that the Jasmine Bush has decided to sell its entire stock of goods and quit business April 1.

The Jasmine Bush is one of the older shops and was started by Mrs. J. L. Rockwell several years ago. Mrs. Bertha Hopkins entered into partnership with Mrs. Rockwell and the shop grew in popularity until the town will feel a distinct loss in its closing. The attractive prices of their closing out sale are drawing many people.

MUSIC SOCIETY WILL PRESENT "STABAT MATER"

Not many towns the size of Carmel can boast of an Easter production of the "Stabat Mater."

Carmel has an orchestra of 40 directed by the eminent musician Michel Penha, a chorus of seventy-five, trained by Fenton Foster and four soloists engaged from San Francisco to sing the cadenzas, etc. written for solo voice and quartet. For children to grow up with such productions as a background and to be able to attend open rehearsals of such a work is indeed unique, and it is the Carmel Music Society that has brought this to pass. The Music Society presents the "Stabat Mater" on March 28 in the Sunset School Auditorium, Carmel, and on March 29, in the Pacific Grove High School Auditorium, as Extra-Series concerts.

Civil service examinations will be held for assistant commissioner of labor statistics and educational officer (food and drugs). Get full information from Fred Mylar at the post-office.

Sewer Bond Issue Demands Study By Every Voter

A view during a flood of a part of the area where it is proposed to carry the sewer pipe across on trestles.

In view of an opposition that has mounted to epic proportions and may defeat the sewer bond issue of $83,000. Carmel Sun presents the following from those who are convinced the issue is a hastily devised, very costly proposition that may possibly be handled in some other way as good or better at a fraction of the huge sum being asked.

Three years ago the board decided the present site of the septic tank now in use was the most feasible spot and entered into a law suit costing several thousand dollars in an effort to purchase adjoining land from Mrs. Otey at a much lesser figure than she demanded, basing their suit upon the contention that she had a questionable title to the land. The courts sustained Mrs. Otey's claim and the board immediately decided they did not want the land then at any price and proposed to locate the new septic tank on the Walker property. Mr. Walker flatly refused to permit his land being used for this purpose.

The board then selected a site at the Japanese Gardens on the Stewart property and this plan together with the proposal to erect an expensive patented disposal plant was outlined at a mass meeting in the school house and met with fair reception. But powerful influence was brought to bear against this project and the Sanitary Board again changed their plans AFTER they had called an election for the bond issue. It is now proposed to locate the plant across the river and to run the sewer main across a long low area on a trestle in order to reach the latest SELECTED SITE.

And it is this new site that has aroused the taxpayer. Above is a view of a part of the area subject to flood waters from ocean and river as shown by the picture and certainly it is a hazardous feat of engineering not to mention a a ghastly blot on a landscape of poetic beauty. There is no guaranteeing how long the trestle will withstand these unusual flood waters and no way of estimating how much it will cost to replace the main sewer pipe when washed out by these ravages of nature. And an additional expense in this location is the necessity of constructing a road and securing the right of way for the same.

THERE IS NO DENYING CARMEL MUST HAVE A NEW DISPOSAL SYSTEM, BUT

DOES CARMEL HAVE TO HAVE A PATENTED PROCESS USED ONLY IN THE EXCLUSIVE DISTRICTS WHERE INSTALLATION AND UPKEEP IS OF NO CONSEQUENCE?

Isn't there some other way of disposing of sewage except in this patented process? It must be noted that the process is not in general use in California. In fact only a few places that have this system were pointed out at the mass meeting and nearly all of these were in the east in millionaire residential districts.

Opponents to the plan feel that they are being rushed into an ill advised scheme under the pretext of securing a governmental gift of $30,000 and the governmental purchase of the balance of the bond issue at a low interest rate. But from all information at hand the government has not committed itself to make either loan or bond purchase and if past performances are taken into consideration Carmel will never get any money from the government, as it has been singularly ignored in all public grants of money on every issue that has so far arisen.

Opponents claim the one feasible plan, to empty the sewage into the ocean, has not been thoroughly gone into. And it is a fact that nearly every town on ocean, bay or river uses that means as the cheapest to install and most economical to operate. Monterey and Pacific Grove both use this plan. Iron pipes carry the sewage out into the ocean to deep water and it is estimated that a thirty foot depth can be found off Reamer point in a distance of less than four hundred feet from the point. And at this depth of water there is no motion in the water and competent authorities make the statement that there would be no contamination or odor whatever since the salt water would dissipate any harmful bacteria in the sewage.

This means of disposal it is said can be accomplished at an initial outlay of $25,000 and maintained without any expense as against an initial cost of $83,000 for the proposed patented septic tank and a yearly upkeep cost of $2,000. to $10,000.

And here is another proposition that is causing some deep thinking with the man who is going to pay the bill. Mrs. Otey has a half acre of land adjoining the present location of the tank now in use which she offers for $500. She has an additional nine acres for which she wants $10,000.

Now why isn't the plant put on this land? The courts say the property is Mrs. Otey's. The sewer lines are already at the site. The engineers guarantee the patented process to be absolutely free of odor and the waste water "almost good enough to drink." And they give solemn assurances fortified with beautiful plats and pictures that the entire process will be housed in beautiful and practical buildings. Why is it necessary to run an overhead sewer pipe over a long stretch of land subject to floods and high waters at INCREASED cost in order to get AWAY from the Otey lands?

The taxpayers are asked to vote bonds in the sum of $83,700. for certain rather vague and indefinite sewer improvements on a site still problematical. The cost of this to the taxpayer in figures he can understand is estimated to be an average of 18c per hundred dollars valuation and yet it is admitted that the first year or so may cost at least 43c per hundred dollars which leaves the taxpayer guessing about what it will really be for some eighteen years more.

In spite of the intensity of feeling manifest the board is free from the malicious statements questioning their motives so common in issues of this kind. The board is composed of men who are capable, loyal to Carmel and of unquestioned honesty, but a great many feel that the board has been stampeded and ill advised. In any event they have given their time and honest efforts without stint and for this are to be commended.

If you favor further investigation with different propositions from which those who pay the bills may take their choice, it is your duty to vote on this issue. If you favor the present plans, it is no less your duty to go to the polls Monday and cast your vote.

SUNSET'S COSTS NORMAL AND SHOW REDUCTION

"Sunset School is paying no more for education than the average net cost for the State of California. The well-rounded education of the child is the most important function of the community." James G. Force, County Superintendent of Schools, Salinas, March 4, 1932.

Last year the Sunset tax rate was 42 cents. This year it is 27 cents.

SUNSET TESTS HIGH MARK

"On Jan. 13, 1932, I personally tested Sunset School eighth grade pupils. The average score made was 97 points. This was much above the average set for the United States." James A. Walker, Supervisor of Schools, Monterey county.

SUNSET GETS ALMOST THREE TIMES ITS NORMAL HONOR-ROLL QUOTA.

"It is a pleasure to report that Sunset pupils who have entered Monterey High School make records above the average. At present 79 graduates of Sunset represent 12 per cent of the 648 pupils in the high school. Sunset graduates constitute 32 per cent of the names on the High School Honor Roll." From data furnished by Monterey Union High School. Hence, our small 12 per cent of Sunset Graduates captured 32 per cent of these scholastic honors.

VISITING EDUCATOR SAYS SUNSET IS OUTSTANDING SCHOOL

"It is rare that one sees a whole school, like Sunset, so permeated with the ideas and ideals that we try to give our student-teachers before they go out to teach. I have frequently told my classes in San Jose Teachers College and my summer classes in the College of the Pacific at Stockton about the school in Carmel where an exceptional educational program is in progress. Oct. 17, 1932, Cecile B. Hall, Associate Professor of Education, San Jose Teachers' College.

Sunset Needs a Trustee Like Mrs. Helen Levinson

Mrs. Levinson loves Sunset School; wholeheartedly, loyally. This spirit is born of seven years close contact. She feels toward Sunset much as a mother toward her own children. When Sunset excels she is proud of it. When it falters she is disturbed.

Her correctiveness will always grow out of a sympathetic understanding. Organized society prays for that intelligence in every mother. A community is fortunate if it finds such qualities in a school trustee.

STABILITY Mrs. Levinson is satisfied with Sunset's educational trend. She has ample proof that it meets with the hearty approval of a vast majority of parents and educationally minded citizens.

Moreover, she knows that Sunset wins the admiration of out-of-town educators. So on the whole, parents could hardly be expected to ask for a different standard. Nor could the community easily agree on any other basis of child-training. Mrs. Levinson will not tamper with success.

PRIDE AND CRITICISM Mrs. Levinson has intuitive educational understanding, and along with so many others of similar insight, she rejoices in Sunset's broad educational aims, and in its happy, wholesome spirit. She believes that Sunset is one of Carmel's finest possessions, and one to be dearly cherished. But Mrs. Levinson well knows that Sunset is not infallible, and makes its mistakes. Her own criticisms will be effective because they will be tolerantly registered.

ECONOMY Mrs. Levinson has a thrift born of German parentage. She will use it in an earnest endeavor in balancing the rights of the tax-payers against the rights of the children and teachers. To do less would be poor service to the community.

Those Who Will Vote for Mrs. Helen Levinson

FIRST. Those who see the happiness of Sunset children as she sees them—happy in the school and in the home, and growing in mind, body and character, and under the policies that need no radical change, but rather, judiciously built upon.

SECOND. Mrs. Levinson expects a large vote of confidence, not for herself but for Sunset as is, because so many others also see Sunset's good points far outshining its shortcomings.

THIRD. She expects the vote of all who are eager to join with her in fostering in this community a growing spirit of loyalty and tolerance for our fine school. She knows, just as any mother knows, that as a child can not properly develop without sympathy and understanding, just so a school can never be at its best without similar intelligent treatment.

So vote for Mrs. Levinson. She has a world of commonsense. She has thrift. She has kindly sympathy. She has educational understanding.

She has children in the school. And, above all, she has the will to co-operate with the town, with the Board and with the whole school for a happy, thrifty, useful term.

Election Day March 30. Polls open 9 a. m. to 7 p. m.

This Advertisement Paid for by Many Friends of Sunset School

CHILDREN'S CARNIVAL IS WELL UNDER WAY

Starting off with a big parade and ending with a huge bonfire, the Children's Carnival, under the auspices of the Parent-Teachers association is all set for Friday afternoon, March 16, or one week from tomorrow. If you forget this date, you're going to be sorry. Friday afternon ,March 16, at 2 o'clock!

There will be freak shows peep shows, movies, tumbling and acrobatics, dancing specialties, Hill Billies, ponies for riding, hot dog stand, fish pond, book and flower booth, and fortune telling booths, for children an adults.

Contributions for the book booth may be left at the school and for the fish pond at the Dolores Bakery.

It is hoped that all the youngsters will be in costume and to those mothers who have no time to sew is a welcome message that Mrs. Charles Guth will assist them with the costumes.

You won't have to hurry home to get dinner for there will be a food booth there where you may choose your foods all ready to serve.

Prices for the side shows will range from one to ten cents and the proceeds will be used for remedial health work.

For further information you may call Mrs. Grace Plank, the P.-T. A. president, at 763-W.

SUNSET PUPILS RATE HIGH IN SCHOLARSHIP

Reports from the Monterey Union High School indicate that graduates of the Sunset School are maintaing a fine scholarship status. The high school honor roll for the past two quarters shows that the local school has more than its proportionate share of pupils on the list. Jean Funchess and Pat Kennedy added further laurels by tieing for highest scholastic honors the past semester. The continuously high rating the classes in Sunset school have made in the Stanford achievement test speaks well for the thoroughness of the training the local pupils receive as the Stanford achievement test is band on the fundamentals.

CARS COLLIDE AND ONE MAN KILLED

When a car driven by Miss Blanchard of this city and one driven by E. Maas of Monterey collided Saturday evening on the Pacific Grove-Carmel highway, both drivers and Mr. and Mrs. Victor Schwab, riding with Maas, were injured. The cars were demolished.

Maas was taken to the Monterey hospital unconscious and died there Tuesday. Miss Blanchard was taken to Carmel hospital for treatment.

MURRAY'S GARAGE HAS PRECISION BORING TOOL

Murray's Garage on Ocean avenue is announcing through an advertisement in the Sun this week the recent installation of new equipment that enables them to re-bore a motor with such extreme precision that it is guaranteed to give almost as good as new performance and increase the life of an old motor by thousands of miles. It is said to be the only machine of its kind on the Peninsula and will bore a cylinder perfectly smooth to limits of a ten thousandth of an inch.

Mr. Murray is a mechanic of extensive experience in large eastern shops and believes in giving his patrons nothing less than the very best which is one of the reasons for his rapidly growing business.

Carmel Valley

(From last week)

Bride Compimented AT Shower

Complimenting Mrs. Leonard Williams, the valley's newest bride, Mrs. Leo Lutes entertained at a miscellaneous shower at her home in the valley on Washington's birthday.

The room was appropriately decorated in patriotic colors with a cherry tree in one corner.

Games were played the early part of the afternoon after which Mrs. Williams was presented with a hatchet and asked to cut down the cherry tree. Upon doing so it revealed the box of gifts. After the gifts had been opened, dainty refreshments were served by the hostess.

The party had a double purpose as it was the birthday of Beatrice McDonald.

Those present for the afternoon were the Misses Beatrice McDonald, Norma Reggiardo, Lena Salvano, Edith Mason, Ann Elizabeth Martin, Mary Elizabeth Stewart, Phyllis Meadows, and Mrs. Hatton Martin, Mrs. Leonard Williams and the hostess.

Home Department Meets March 6

The Carmelo Home Department will hold its regular meeting on Tuesday, March 6, at the home of Mrs. J. H. Stewart. Miss Ann Olson will have charge of the pattern alteration and accessories part of the meeting and Miss Hally Flack, child development specialist, will be present and address the group. All those interested are cordially invited to attend.

Club To Give Dance

The Carmel Social and Athletic club held its regular meeting on Tuesday evening, February 27. Mrs. Leonard Williams, president of the club, presided over the meeting.

It was voted that a special meeting be held on March 27 to discuss plans for the annual May Day picnic and dance. It was also decided that a dance be held on Saturday, March 17 at the Carmelo Hall. The committee appointed to make plans for the dance were: Mrs. Ora Vasquez, chairman; Phyllis Meadows, and Trueman Scarlett.

The public is cordially invited to attend. Refreshments will be served at midnight.

Little Tot Injures Ankle

Friends of little Miss Shirley Anthony of San Jose will be sorry to learn that she fell and sprained her ankle very badly several weeks ago. She is now able to attend school again, however. Shirley is the daughter of Mr. and Mrs. J. C. Anthony Jr., and just recently left the valley.

Recent Rains Damage Small Bridges

During the recent rain which raised the river considerably, several small footbridges were taken partially out. It was an unfortunate incident when the W. A. Cook bridge went out in the middle.

One of Mr. Cook's neighbors had come across the river for some supplies. When he returned, the bridge had gone out leaving him on one side of the river and his wife and neighbors on the other side. The scene attracted all the nearby neighbors.

Fortunately, the river was only up a short time and the bridge was put up as soon as possible.

Miss Lena Salvano spent the week-end at the home of her parents, Mr. and Mrs. M. Salvano. Miss Salvano is a student at San Mateo Junior College.

George Gordon Moore is feeling unusually good these days. He just missed the ill-fated plane which crashed about 20 miles east of Salt Lake City, Utah last week, killing all aboard.

Mr. and Mrs. H. W. Anthony of Visalia spent Sunday with Mr. and Mrs. J. C. Anthony.

Mr. and Mrs. William Conner of Oakland visited with Mr. and Mrs. J. C. Anthony Saturday. Mrs. Connor was here in connection with the Girl Scout conference at Asilomar. Mr. Connor is a chemist for one of the sugar factories in the bay region. The Anthonys and Connors are old friends and had many interesting things to talk about during their visit.

Ed Hatton and Francis Doud were in King City February 27 looking after some cattle.

NOTICE OF ELECTION FOR ELEMENTARY SCHOOL TRUSTEE

Notice is hereby given to the electors of Sunset Elementary School District of Monterey County, California, that the annual election for School Trustee for Sunset Elementary School District will be held on Friday, March 30, 1934.

It will be necessary to elect one trustee for three years.

The polls will be open between the hours of nine o'clock a. m. and seven o'clock p. m.

For the purpose of this election, the Sunset School District will be divided into two consolidated precincts as folows:

Consolidated Precinct A will comprise Carmel Precincts 1 and 2, that is that portion of the district within the corporate limits of Carmel and west of San Carlos street. The polling place for Consolidated Precinct A will be the Carmel Fire House

Consolidated Precinct B will comprise all the remainder of the Sunset School District, that is all that portion of the district within the corporate limits and east of San Carlos street together with portions of the Pt. Lobos Precinct and the Pebble Beach Precinct. The polling place for Consolidated Precinct B will be the Sunset School building.

The officers appointed to conduct the election in Precinct A are:

Ferdinand W. Haasis, Inspector.
Thomas J. Heflin, Judge
Harry Clement, Judge.

The officers appointed to conduct the election in Precinct B, are:

George Whitcomb, Inspector.
Haskell Warren, Judge.
Mabel A. Hart, Judge.

Signed:
Daisy B. Taylor,
E. H. Ewig
Clara N. Kellogg, clerk

SIMPLE LOGIC:

Electric Range + Electric Water Heater + new low electric rate = MONEY SAVED

1¢ per kilowatt hour! A new low electric rate for cooking and water heating on the lower block rate.

THE steadily increasing popularity of electric cooking proves one point beyond a doubt. If you try one of the modern, super-speedy electric ranges, the odds are very much against your ever going back to any other type of kitchen cooking device.

So great is the contrast between the automatic way in which the electric range carries out your cooking orders from the standing-by watching and hoping method of non-automatic stoves, your decision will be immediate. Cooking is better, easier, simpler with the modern electric range.

As a companion convenience to match the modern performance of the electric range you will want one of the highly efficient, automatic storage type electric water heaters. The combined price of these two kitchen companions you will find to be exceptionally low this year. Now isn't this the first thing to be done in the spring program of improving and modernizing your home?

Best of all by using the electric range and the electric water heater with a demand control switch you will enjoy the new low electric rate of one cent per kilowatt hour. Get the facts on this new deal for the kitchen. We know you will be enthusiastic.

It takes only about 3% of the family budget to give the services of an electric percolator, toaster, radio, refrigerator, lights, electric clock, washing machine, iron, vacuum cleaner and other lesser appliances. Electricity renders many services at little cost.

Carmel Valley

(This week)

On Tuesday afternoon the Carmelo Home Department met at the home of Mrs. J. H. Stewart. Pattern alteration and accessories was one of the topics discussed. Miss Ann Olson, Home Demonstration Agent had charge of that phase of the program.

Miss Hally Flack spoke on child development, Miss Flack is a child development specialist of Berkeley.

It was decided that a survey be made to find out how many in the valley were using beet sugar and Mrs. J. C. Anthony was appointed as chairman of the survey. This survey is also being made in other parts of Monterey County.

Plans were discussed for the next meeting which will be held jointly with the Farm Center meeting in April. As that is Child Development month, the Home Department will have charge of the program.

Mrs. J. H. Stewart entertained the 4-H club last Friday evening at a Turkey dinner. Following the dinner the Club held its regular meeting and planned the recreation program for the March Farm Center meeting. They also worked on a demonstration for the Summer Asilomar camp. After the business meeting, games were enjoyed.

After the business meeting, games were enjoyed.

Harry Morrell, director of Organization of the California Farm Bureau Federation will be the speaker at the Farm Center meeting on Friday evening, March 9. He will speak on the Agricultural Adjustment Act and what the New Deal is doing for the farmer.

4-H Club is putting on a program after the business meeting.

Mr. and Mrs. Hatton Martin and son Gordon motored to San Jose last Friday on business, returning the same day.

B. H. Schulte, Secretary-manager of the Carmel Valley Fruit Growers' association, attended a pear growers' meeting in San Jose last week. The main topic under discussion was New York Auction Markets.

Mrs. W. T. Winslow and her daughter Mrs. Luis F. Wolter were in San Francisco and Berkeley for several days on business.

In honor of Mr. and Mrs. Leonard Williams (Emily Martin) a reception was given Saturday afternoon by Mr. and Mrs. William E. Martin,, parents of the bride. About 40 relatives called during the afternoon to greet the newlyweds. The rooms of the Martin home were decorated with spring flowers and formed the centerpiece at the tea table over which Mrs. Frank Hatton and Mrs. Hatton Martin presided.

Mr. and Mrs. Williams just recently returned from a wedding trip in northern California and are now established in their Carmel Valley home.

Charlie Palmer of Robles del Rio is spending a few days in the High Sierras.

Among those week-ending at their Robles del Rio homes were J. W. Martin and family and Andy Martin, state highway patrolman and party of Salinas.

Many will be glad to learn that there will be a dance at the Carmelo Hall on St. Patrick's Day, Saturday March 17. As this is the first dance that has been held in the valley for many months, a good attendance is expected. Everyone is cordially invited to attend. Refreshments will be served at mid-night.

NEW INVENTION NOW MEASURES LIGHTING

A portable instrument called a sight meter invented for the purpose of permitting the householder to see for himself whether he has the right kind of lighting in his home and whether it is so arranged as to give him comfortable as well as efficient service. It measures the amount of light shed by any fixture upon any part of the room and so opens the way for changes of position or arrangement to the advantage of the person using the light for any particular task. The sight meter is to light what the thermometer is to temperature.

Good lighting means eye-preservation. Glare, so hurtful to the eye, must be prevented, yet the light must be of sufficient strength to avoid eye-strain. Every lamp, every bracket, must be of the wattage best suited to the use to which the room is put and, at the same time, so placed as to afford the best possible service to the occupant from the standpoint of convenience, efficiency and well being.

The electric light company maintains experts whose advice is at the service of the householder free of charge.

High School Notes

By Bob Scrippture

Committees for the April Circus which will be held on April 20 have been announced and several Carmel students have places on them.

Monday March 12 has been set for the opening of the new swimming pool. The pool is 35 feet wide and 75 feet long and is nine feet deep in the deepest part. Regular instruction in all swimming will be given including life saving instruction.

Charles Bauer and Bud Fox were winners in their tennis matches in the first C. C. A. L. meet held last Saturday with Salinas in which the Monterey players won 7 to 4.

ARRIVALS AT HOTEL LA RIBERA FOR WEEK

Mr. and Mrs. Chas. Thorndike, Boston, Mass. Mr Paul and Mrs. M. L. Washburn, Boston, Mass., Mrs. George Goodhue, Cambridge, Mass., Mr. and Mrs. W. W. Howell, Boise, Idaho, Mr. and Mrs. A. D. Roberts, New York City, Mrs. L. M. Barrard, London, England, Mrs. Livingston Keplinger, San Francisco, Misses Lillian Kirkwood and Violet Cook, Gilroy, Mrs. G. E. Cockrell and Mrs. C. E. Dreary, San Marino, Mr. and Mrs. L. A. Green, San Francisco, Mr. J. S. Herman, sr., San Francisco, Mr. and Mrs. E. T. Joste, Oakland, Mr. R. H. Bosshard, San Francisco.

CHRISTIAN SCIENCE CHURCH

In all Christian Science churches, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass., a Lesson-Sermon will be read Sunday, on the subject "Man."

The Golden Text will be: "Behold, what manner of love the Father hath bestowed upon us, that we should be called the sons of God." (I John 3:1) Bible selections will include the following passage from Psalms 84: 5, 7, 12, "Blessed is the man whose strength is in thee; in whose heart are the ways of them. They go from strength to strength, every one of them in Zion appeareth before God. O Lord of hosts ,blessed is the man that trusteth in thee!"

A passage from the Christian Science textbook. "Science and Health with Key to the Scriptures," by Mary Baker Eddy, will also be included which reads as follows: "The Principle and idea, are indestructible in Science; and Science knows no lapse from nor return to harmony, but holds the divine order or spiritual law, in which God and all that He creates are perfect and eternal, to have remained unchanged in its eternal history." (p. 470)

WATCH YOUR STEP, SAYS P. G. & E. COMMITTEE

There's a reason for the "Watch Your Step" signs which are to be seen so plentifully sprinkled about ferry boats, street cars and industrial plants.

A report of the Central Safety committee of the Pacific Gas and Electric company covering injuries suffered by employes during the year 1933 gives the answer. The reason is that more people are hurt by accidental falls than in any other way.

During the twelve months of last year, the company reports, 96 lost time injuries were sustained by employes. Lost time injuries are those serious enough to cause the loss of one or more days of working time. Of the total injuries, 28 or nearly one third, were caused by falls.

Five workers stumbled over loose objects, four fell on stairs, three slipped on a level surface, two fell into openings, two stumbled over fixed objects, one fell from a balcony, another from a ladder and two from other elevations. One came a cropper while jumping. Only three men fell with or from poles and only two off flumes. both natural hazards of the electric industry which might be expected to happen frequently.

TUBERCULOSIS ASSOCIATION TO MAKE SURVEY

The Monterey County Tuberculosis Association wishes to thank the citizens of Carmel and vicinity for their splendid cooperation and interest given in the 1933 Christmas Seal sale.

The net proceeds of the sale for the County is approximately $1100 up to the present time. Returns of sales continue to come in.

It is the plan of the County Tuberculosis Association to spend part of the money raised on a partial survey to accurately estimate the number of children in the County who have evidences of early or beginning infection with tuberculosis. It is planned to make the survey complete throughout the County as funds permit.

GARDEN SECTION

At the next meeting of the Garden Section of the Woman's club at 2 p. m., March 15 at Mrs. F. B. Comins, Santa Lucia and the Highway, Mrs. Wm. G. White will talk about Rock Garden plants.

Kenneth Jameson of Santa Fe, New Mexico who for the past several days has been stopping at La Ribera has taken a cottage on Scenic drive where he expects to spend some time. Mr. Jameson is a portrait painter of miniatures.

E. J. Tobin president of the Hibernia bank in San Mateo spent the week-end at La Ribera while visiting his many friends on the Peninsula.

Mrs. Delos Curtis is now on the road to recovery from a recent illness.

VELIE CLINIC MAY BE CONVERTED TO HOSPITAL

A $400,00 institution may be turned over to the peninsula for a non-profit community hospital if the people will raise a sufficient sum to put in a surgery and delivery room at the Grace Deere Velie Clinic, according to C. W. Lee who has come to lend his aid in the financing.

To the end of raising the money Mrs. Henry D. Phelps has accepted the chairmanship of the fund effort, and Mrs. McKim Hollins has accepted the vice chairmanship, under the general supervision of Mr. Lee, a man of wide experience in this line. Mr. Lee is the father of Mrs. Guy Koepp of this city and with his wife has taken a cottage here.

On February 28th, the hospital, run as a metabolic clinic, was closed as such, but the president of the board, W. W. Powell of Los Angeles, has agreed to allow the institution to remain open for two months during which the board will pay the carrying charges and allow it to be used as a general hospital, Mr. Lee stated, this measure to give the people of the peninsula an opportunity to see whether they wish such a community hospital.

The clinic has a wide reputation. It is a beautiful building in beautiful suroundings, and since it would be an open hospital in which any physician might practice, it would seem a most desirable project.

Public minded people will no doubt rally to the aid of those who are working for its perfection.

CITY COUNCIL TAKES UP INTERESTING MATTERS

It was just a good old-fashioned get-together meeting last night when the council met in regular session.

The first matter taken up was the reading of the ordinance calling for the coming election. The precincts have been changed and voting places have been decided upon as the fire house and Sunset school.

A representative of the state highway commission was present and presented an apology from that department for the cutting of trees on Ocean at Carpenter. The explanations were accepted and City Clerk Saidee Van Brower unofficially requested them to plant trees in their place.

Atty. Argyll Campbell stated that he had had word that the city hall building would probably be approved soon as a PWA project and advised the council to call for the bond election in conjunction with the regular election to avoid expense, the proposition to state clearly that no bonds would be issued unless the project goes through.

It was decided to put a stop sign on Ocean at Carpenter for the incoming traffic through Hatton Fields.

There will be a called meeting next Wednesday night for the reading of the proposed ordinance and the question of the business licenses will probably also be taken up.

The trial of William Machado who was arrested last week on a charge of reckless driving when his car collided with that driven by Mrs. Clara Cowan of Seaside has been postponed until Thursday, March 18, on agreement of his counsel, Atty. Feliz and the district attorney.

FINE COMEDY AT COMMUNITY PLAYHOUSE

By Edward Kuster

"They Knew What They Wanted", Sidney Howard's famous Pulitzer Prize comedy of California ranch life, is at the Community Playhouse this week-end. Since it would be rather ridiculous for the writer to try to conceal his identity behind a "publicity department", he will candidly avail himself of the declaration of Stark Young about this play after its premiere and say that here no less than in New York, "They Knew What They Wanted" is to be recommended all over town." The story of the play has been told before in these columns. It is, as another eminent critic has said, a soul-rousing play out of American life, and no true Californian, this writer adds, should miss seeing it. It shows the sunlit vineyards and brown summer hills of Napa county, with the blue of dsitant mountains in the background, form the subject of a backstage profile painted by Charles Sayres with fine artistry, a scenic touch that was lacking in our production here seven years ago. In Althea Kendall and Evert Sholund the ideal "Amy" and "Joe" have been found, and if the public liked the Golden Bough production they will be even more delighted with this new presentation, though enacted by an almost entirely new cast.

Owing to the high royalty, the production cannot be extended beyond Saturday night. The writer cannot too often remind the community, particularly that part of it that has not been going to stage plays for some time, that here is a play that will appeal to everyone. It is not a sophisticated drawing-room affair of "clever" dialogue spoken by impossible people, but a simple story of plain straight-thinking folk who come to the verge of tragedy and, plunging in, pull themselves out with a shout.

Striking a more personal note, the writer, often given to pioneering in new dramatic territory, has elected this time to repeat a former success because now and then it is necessary to produce a sure-fire play in order that the Community Playhouse may be made more nearly self-sustaining. With no lease in prospect and no contract of any kind with any organization in sight to assist the writer in maintaining the Playhouse from this time forth, its fate lies wholly with the Carmel and Monterey public. On this particular occasion it would be a boon if many who have seen "They Knew What They Wanted" and know its merits would pass the good word along to those less familiar with the play.

CARMEL'S SEWAGE DISPOSAL

It seems the Carmel Sanitary Board are having some trouble in trying to locate a site for the sewage disposal. They wanted the Otey property adjoining the site of the present septic tank. Tried to get it by legal proceedings, lost the case. Then when told by the State Board of health to get busy, they selected a patch of land close to the Carmel Mission.

They then took a suggestion from an out of town paper and decided on a piece of land on the south side of Carmel river near the Ocean. The Board proposes to build a trestle to carry the sewerpipe across the river. That will be some problem as Father Neptune cannot be relied upon nor can the outgoing storm waters of the Carmel river. Ocean waves have been known to roll into the river lagoon eight to ten feet high. The Carmel Development company set aside a parcel of land, a fraction over a half acre for the present septic tank.

A mass meeting was called and an explanation given of the modus operandi of the sewage going through the different processes and coming out sterilized worth so it was said, $5. to $7. per 1,000,000 gallons. No information was given as to what kind of containers it was to be kept in until disposed of by sale.

There was no detailed or itemized statement of cost and upkeep of the new septic tank given those who will eventually be called upon to pay the bill. The State Board of Health should investigate Santa Barbara's sewage disposal and all cities bordering on the ocean, bays and rivers.

The only logical and economical way for Carmel to dispose of its sewage is to pipe it out into the ocean 400 feet out from the North side of the river beach.

As to the closing of the beach that is a bluff. Carmel's beach proper does not enter into the matter. What is meant is the river beach.

Septic tanks are not satisfactory and cause continual trouble and expense. When the present tank was installed a prominent man, now a resident of Carmel, told the then Sanitary Board the tank would never give satisfaction and cause continual trouble. He advised them at the time to dispose of the sewage by pipeline out into the ocean from the rocks, where good anchorage could be had. As for contamination of the beach he said it was all nonsense. He called their attention to the unpollution of San Francisco's beach south of the Cliff house, also Coney Island, New York, where thousands bathe. The chloride of sodium in the ocean water destroys all colon baccilli. San Jose discarded her septic tank and built a sewer line to the San Francisco Bay. No doubt but what the present septic tank is inadequate and something must be done about it. But careful consideration comes first, don't let us have a repetition of our sewer system. Run a pipe line from the river beach out into the ocean, there will be no odors to offend or any contamination of the beach, irrespective of what may be said to the contrary. Let's vote no on the present bonds and have a mass meeting in which the people may have a voice.

To spend $83,700 for a new septic tank with its expensive accessories is crowding. Carmel's Bond Redeemers too much.

ROBERT H. DURIEE

Local and Personal

Mrs. Cyril George and sister of Fresno spent the week-end at Pine Inn.

Miss Janet Prentiss spent the early part of the week in San Francisco.

Mrs. Adele Wainwright has returned home from a week's visit in San Francisco.

James Stonier and wife have returned to Carmel after a pleasant tour of the state.

Mr. and Mrs. Lawrence Melrose are moving from Tenth and Dolores to Eleventh and Dolores.

Mrs. J. B. McGarrag and Miss Stella Guichard drove to San Francisco Sunday to stay two days.

Mrs. Bessie Joyce and daughters of Oakland have been occupying their cottage at Tenth and Monte Verde.

Mrs. J. M. Brown and daughter of Piedmont occupied their cottage Brae Mar on San Antonio or the week-end.

L. R. McNeil and family have returned to their home in Beverley Hills after a two weeks' stay in Carmel.

Dr. Vandergurgh and wife of Fresno write that they will come here to spend their Easter vacation in their Carmel cottage.

Prof. Marino of Stanford University, with his family, will spend the week-end in the J. C. L. Fish cottage on Camino Real.

Dominican College at San Rafael will close the 28th for Easter vacation and the several Carmel girls who attend school there are expected home.

Mrs. J. O. Swain has gone for a two weeks' visit with her son and daughter, Mr. and Mrs. W. O. Swain at their country place near Los Angeles.

New signs are being printed to be posted about the beaches in preparation for the Easter visitors. A full time care taker will probably be put on duty earlier this year than last, it is said.

Mrs. George Romine has been seriously ill the past week but is now improved.

Mrs. Jack Herron of the Viennese Shop has received a letter from her mother who is living in Vienna. She wrote that things were not nearly so bad as reported.

MrM. and Mrs. Wm. E. Parsons of Chicago, Ill., friends of Mr. and Mrs. R. J. Mathias of Carmel are stopping at hotel La Ribera for an indefinite period.

Mrs. C. L. Wilder is enjoying a visit from her parents, Mr. and Mrs. Shepard of Atascadero. The Wilders live at Dolores and Tenth.

Major Totten and wife who were here in December but left for the East, have returned for an extended stay. The major was formerly stationed at the Presidio of San Francisco.

Mr. and Mrs. Robert Lawrence left Friday for their home at La Combe, Alberta, Canada. They stopped here on their return from a honeymoon trip to England. They are driving to Canada.

Floyd Parton, president of the Building and Loan Association of San Jose, occupied his cottage here over the week-end.

Mrs. Elaza H. Yokum has gone to San Francisco for a short stay.

Mrs. Viola Kelsey is suffering from an infected hand caused by running a needle into her finger. The accident occurred during the morning hours and by afternoon infection had set in and the wound had to be lanced.

Mr. and Mrs. Jules Hancock are occupying their home in the Highlands for a few weeks. Mrs. Hancock returned last week to her Piedmont home after a three months' trip around the world. Mr. Hancock is convalescing from his recent illness.

MISSING—From Sunset school boy's red and white bicycle with balloon tires. Suitable reward. Phone 785-W.

LESTER DONAHUE TO PLAY IN CARMEL MCH. 16

Lovers of fine music well played are looking forward to the recital by Lester Donahue in the Denny-Watrous Gallery on Friday evening, March 16. The work of the evening will be the Fifth Sonata by Scriabin, which most people will have the opportunity of hearing for the first time, as it is very rarely played. Mr. Donahue played it in Berlin, Munich, Vienna, Paris and London several years ago, with outstanding success. He then laid it aside, "to get a new angle on it," as he put it, and will on the sixteenth offer it on a program for the first time in America, with deeper understanding of its greatness and matured vision of Scriabin's excellent genius

GLEE CLUB TO GIVE CONCERT HERE

The Community Church is pleased to announce the annual concert by the Foster Glee Club of Carmel, which is to be given in the church on Sunday night, March 18, at eight o'clock. An entirely new program of glees, part songs and "negro spirituals" is to be presented by this excellent group of business men who love to sing. Amongst others "Kings of the Road" and "Wait till Ah Put On Ma Crown", should prove most interesting.

As one of the soloists, Mr. Paul Hampton, a tenor of wide experience in both church and concert work will be featured in special numbers. Fenton P. Foster, the club's organizer and director, himself well known for his many musical activities hereabouts during the past years, feels certain this concert will be up to the high standard set by the club in their former presentations.

A silver offering for the benefit of the church will be received, and a large attendance is anticipated.

James Vernon Short of Berkeley was in Carmel over the week-end doing some repair work on his cottages here.

TO SAN FRANCISCO
One Way $2.47 Round Trip $4.44

DESTINATION	One Way	Round trip
San Jose	$1.54	$2.76
Los Angeles	$7.64	$13.74

These are examples of the new one way and roundtrip train fares to all S. P. stations. Good in coaches and chair cars on fast trains—also in Tourist Pullmans (plus berth). Fares good in Standard Pullmans are slightly higher.
